**Front-End Frameworks:** Angular, React

**Back-End Frameworks:** ASP.NET, EF Core, Express.js

**Tools:** Git, Linux, Docker, VSCode

## Professional Experience

Booz Allen Hamilton – *Crystal City, VA* (August 2021 – Present)  
Software Engineer

- Full Stack development using
  - Front-End: Angular, TypeScript
  - Back-End: C# ASP.NET, EF Core, PostgreSQL
- Collaborated with a team of over 100 developers, maintaining and updating the web application to client requirements.
- Created an executive view module from scratch - planned, analyzed, and created new tasks, developed code, and managed newer developers' work on a small team.

Sight Gain – *Tysons Corner, VA* (Summer 2019 & 2020)  
Software Developer Internship

- Full Stack development using
  - Front-End: React, TypeScript
  - Back-End: NodeJS Express, ElasticSearch, Kibana, MongoDB.
- Analyzed user needs, wrote design solutions, and implemented software to improve the application.
- Collaborated with a small team of developers to add updates to the applications in a fast-paced startup environment.

## Education

**B.S. Computer Science**, University of Maryland at College Park

- Business Minor
- GPA: 3.5
- Top Secret clearance, active (2019 – present)
